It is important that parents/caregivers are involved in the decision making process in order to enable wise decisions to be made. It is our belief that the practicing of decision making in this way will help students develop responsibility and the important skills needed in making decisions.

In considering courses of study, students and their parents/caregivers are making very important decisions. Students' educational backgrounds, interests, capabilities and plans for the future should all be taken into account.

Students should consider the following steps:

- Ambitions – their future, career plans, and their education.
- Their capabilities and interests.
- Their achievements at school so far.
- Information available to them about their choices (from teachers, parents, careers counsellor)
